

Graffiti Stain Remover

Description

Graffiti Shadows or Ghosting can often be left behind once graffiti removal takes place, especially on highly porous surfaces such as sandstone. UH Graffiti and Shadow Remover Liquid is specifically formulated to take over where other graffiti removers leave off. Containing the optimum blend of strong paint stripping and graffiti removal chemicals plus lightening and bleaching agents, Graffiti Shadow Remover gets to work instantly blasting out ink and spray paint based graffiti media and brightening and bleaching the graffiti stained substrate to deliver near perfect clean wall results.

Advantages

- Penetrates deep into graffiti
- Lifts and bleaches inks and dyes
- Powerful graffiti shadow remover
- Removes deep graffiti shadows
- Erases graffiti media ghosting
- Low odour and non-flammable
- Lightly gelled for vertical use
- Suitable for all masonry surfaces
- Effective on porous substrates
- Leaves walls professionally clean
- Reduces cleaning & removal times
- Prevents recurrent graffiti bonding
- Safe to use internally or externally
- Can also be used as a paint stripper
- Works on multiple layers of graffiti
- Our strongest wall cleaner available

Application method

Caution

Do not apply to paint, zinc (galvanising), aluminium or glass as it will damage these substrates

Method

Apply with brick cleaning brush or alkali resistant brush and work well into the surface. Keep agitating with a brush and keep wet by applying more product if necessary. Do not allow to dry.

Rinsing

Good rinsing is essential. Preferably use a high pressure, low volume water pump at 6.9MPA at 18 to 25 litres per minute. 69 BAR at 18 to 25 litres per minute, 1000 PSI: at 4 to 5 imperial gallons per minute. Use a 15 to 45° fan tip. Water at up to 70°C may improve cleaning but is not essential. If high pressure water is not available use low pressure and scrub whilst hosing.

Specification:

Appearance: Liquid
Odour: Mild
Specific Gravity: 1.18
pH: 14

Hazard Identification

Risk & Safety: Corrosive
Hazard Symbols: C

First Aid Measures

Inhalation: Move the exposed person to fresh air. Rinse nose and mouth with water.

Eyes: Promptly wash eyes with plenty of water while lifting the eye lids. Continue to rinse for at least 15 minutes.

Skin: Wash the skin immediately with soap and water.

Ingestion: Rinse mouth thoroughly. Drink plenty of water.
