Urban “easy-does-it” Odour Eliminator

Description

easy-does-it Odour Eliminator and cleaner is our high-powered microbiologically active formula designed to deep clean and deodorise porous surfaces. Whether it is concrete carpark stairwells or bus or train fabric seating this one stop solution actively breaks down the organic matter that is causing the odour rather than simply masking it. This makes for a much more permanent solution to the issue of lingering unpleasant smells and odours and can eradicate them in as little as one application.

Benefits:

- Breaks down smells and odours
- Perfect for carpets and fabrics
- Can be used on hard surfaces
- Neutralises smells and cleans
- Microbiologically active cleaner
- Breaks down organic matter
- Works with one application
- Eliminates lingering odours
- Can be used inside and out
- Ideal for the transport industry
- Widely used in UK carparks
- Also effective on concrete

Directions for use:

General Cleaning: Dilute to 20% for cleaning floors, showers, sinks, urinals, tiled surfaces etc.

Odour Control: Dilute to 50% and spray onto hard surfaces

Carpets/Upholstery: Remove as much of the debris as possible and spray neat

Urban “easy-does-it” Odour Eliminator onto substrate and then sponge the surface with hand hot water. For particular bad odours (milk, vomit, urine), spray neat Urban “easy-does-it” Odour Eliminator onto the contamination and cover the surface with a damp cloth and leave for several hours and then vacuum dry.

Carpet Machines: Apply to 10% and use as a standard carpet shampoo

Pipe/Drain Cleaning: Apply directly to drains and leave for 12 hours, repeating this procedure as required.

Refuse Containers: Spray directly to cover all surfaces of the refuse container. Repeat this procedure weekly to eliminate odours.

pH level: 6 - 8 (7 is neutral)
