

## Urban "easy-does-it" Traffic Film Remover

### Description

Tough on road film, green algae and grease but environmentally considerate and user-friendly, our Max Safe TFR – Traffic Film Remover was developed for use on all roadside and trackside surfaces including road signs, street cabinets and all types of transport. Supplied in ready to use 500ml sprays or 5l plastic jerry cans, just one application of this road grime fighting Eco liquid blasts through even the toughest most baked on grease, dirt and algae. 100% compatible with all types of pressure washer and just as effectively applied by manual means, Max Safe TFR is the answer to all your roadside, vehicle, caravan and alloy wheel cleaning needs.

### Benefits:

- Powerful road film dirt remover
- Cleaning and degreasing action
- Fast acting and 100% safe TFR
- Excellent fly and bug eradication
- Solvent free non-caustic formula
- Safe to use on rubber and plastics
- Wax, polish and sealant safe cleaner
- Compatible with all pressure washers
- Cuts through road film and grease
- Leaves road signs gleaming bright
- Cleans all roadside street furniture
- Safe to use on cars, buses and trains

### Directions for use:

**General Cleaning:** Simply apply, leave to work for a minute, and then wipe to reveal a clean white and bright surface.

**Odour:** Slight

**Relative Density:** 1.08 @ 20°C

**pH level:** 13.6 (Concentrated)

**Sign Wash:** Even the most neglected old street sign will be given a new lease of life once Max Safe TFR – Traffic Film Remover is applied. Instantly cutting through years of Traffic-film, green algae and even graffiti, Max Safe TFR blasts away dirt and leaves street signs colourful, reflective and bright.

**Alloy Wheel Cleaner:** Ground in break dust simply lifts away from the alloy, even in hard to reach corners and crevices. Simply spray apply – work in with a brush or a cloth – leave for 2 mins and then pressure wash away to leave alloy wheels looking like new.
